

**High temperature disaster in Shanghai 1934-2018****Data Documentation****I. Dataset/atlas content features****i.Abstract**

The main content of the Shanghai High Temperature Disaster Collection is the major high temperature disaster from 1934 to 2018, mainly including the time or period of high temperature occurrence in Shanghai, and the degree of high temperature.

**ii.Elements (content fields)**

Table 1 Description of data element content

Data name	Item (field)	Field name in Chinese	Field measure unit	Field code description	Remarks
high temperature disaster in Shanghai	Time	Shijian			
high temperature disaster in Shanghai	Site	Zhandian			
high temperature disaster in Shanghai	Degree	Chengdu			

**iii.Temporal cover**

The time of this dataset is 1934- 2018.09.30

**iv.Spatial cover**

Shanghai urban area.

**II. Subject/industry scope of dataset/atlas****i.Subject scope**

170 Geosciences 17015 Atmosphere Science 1701535 Climatology  
 560 Civil Engineering and Building Construction 56015 Basic Disciplines of Civil Engineering and Building Construction 5601530 Architectural Meteorology  
 560 Civil Engineering and Building Construction 56055 Municipal Engineering  
 570 Hydraulic Engineering 57065 Flood Control 5706510 Flood Control  
 5706520 Flood Prevention  
 610 Environmental Science and Technology and Resource Science and Technology, 61010 Basic Science of Environmental Science and Technology, 6101025 Environmental Meteorology.

**ii.Industry scope**

F Transportation, Warehousing and Postal Services, 51 Railway Transportation Industry 52 Road Transportation Industry 53City Public Transportation Industry 54 Water Transportation Industry  
 55 Air Transportation Industry  
 M Scientific Research, Technical Services and Geological Prospecting Industry, 7610 Meteorological Services 7673 Planning Management

N Water Conservancy, Environment and Public Facilities Management Industry, 7910 Food Control Management 8110 Municipal Public Facilities Management

### **III. Accuracy of dataset/atlas**

#### **i. Time frequency**

(Time frequency is the representation content of datasets/atlas' time frequency, such as multi-year average, average, monthly, daily, yearly, month by month, day or hour.)

#### **ii. Spatial reference, accuracy, and granularity**

(This part is the spatial reference, accuracy, and granularity of datasets/atlas. The spatial reference includes coordinate system, projection mode, elevation system, etc. Spatial accuracy means the vector data scale or raster data resolution, etc. Spatial granularity is in accordance with the continent, the state, province, county, and other divisions.)

### **IV. Dataset/atlas storage management**

#### **i. Data quantity**

0.0121MB

#### **ii. Type format**

The dataset is stored in the hard disk and it is table data

#### **iii. Update management**

Dataset update plan: Aperiodic updating.

### **V. Quality control of the dataset/atlas**

#### **i. Production mode**

Data of high temperature in Shanghai in (1949-2017) was obtained based on

Shanghai Meteorological Service <http://www.smb.gov.cn/index.html>

China Meteorological Calamity Code (Shanghai volume)

China Meteorological Disaster Yearbook(2005-2016) and electronic, digital, integrated conversion, standardized processing, computational simulation.

#### **ii. Data sources (condition selection)**

Source of data source:

Shanghai Meteorological Service <http://www.smb.gov.cn/index.html>

Kegang Wen.China Meteorological Disaster Code (Shanghai volume) [M]. Beijing:Meteorological Press, 2008.12.

Lianchun Song.China Meteorological Disaster Yearbook (2005)[M].Beijing:Meteorological Press.2006.1

### **iii.Methods of the data acquisition and processing (condition selection)**

Acquisition method: Book sorting on the net and field survey.

Processing method: Data registration and Object-oriented classification method.

## **VI. Sharing and usage method of the dataset/atlas**

### **i.Sharing methods and restrictions**

Fully opened sharing

### **ii.Contact information of the sharing service (condition selection)**

Contact Information for Service: Editorial board of the China Meteorological Calamity code

### **iii.Conditions and methods of usage**

The dataset can be read by excel software

## **VII. Intellectual property rights of the dataset/atlas**

### **i.Property rights (optional)**

The property of the dataset belongs to the Institute of Geographic Sciences and Natural Resources Research, Chinese Academy of Sciences.

### **ii.Reference method of the dataset/atlas**

High temperature disaster in Shanghai 1934-2018.Disaster Risk Reduction Knowledge Service of International Knowledge Centre for Engineering Sciences and Technology (IKCEST) under the Auspices of UNESCO,2019.04.01.<http://dr.ikcest.org/info/95746>.

### **iii.Usage contacts of the datasets/atlas**

Name: Service group of Disaster Risk Reduction Knowledge Service System of IKCEST

Address: A11 Datun Road, Chaoyang District, Beijing .

Postcode: 100101

Telephone: 010-64889048-8006

Email: [ikcest-drr@lreis.ac.cn](mailto:ikcest-drr@lreis.ac.cn)

## **VIII. Others (optional)**

In addition to the above, other information must also be explained.
